## MURRAY'S Perfect For Everyone

I've been using Murray's Superior Pomade for over 25 years, and no matter what style my hair has been in, Murray's has always worked for me. Short, long, curly, wavy or straight, Murray's does it perfect every time.

I use Murray's because it's perfect for the new short and wavy hair styles. I also like their new pressing cap. Murray's Pomade, Murray's Pressing Cap a winning combination for the perfect non-perm wave. I call it "the Murray's look."

I'm an active working woman on the go 18 hours a day. I don't have time or money for long costly salon visits, so I use Murray's because it's so quick, easy, and economical. My hair just loves those ultra rich Murray's conditioners. They soak-in and help fight dryness, split-ends and dry skin dandruff flakes. My hair seems healthier and fuller than before. And I've got gentle waves that last and last.
